## Skills

| Frontend Development | Javascript Frameworks | Styling | Other |
| --- | --- | --- | --- |
| HTML5 | Angular | SASS & SCSS | Git |
| CSS3 | React.js | Bootstrap | Github |
| JavaScript | Vue.js | Tailwind CSS | MySQL |
| TypeScript | JQuery | | WordPress |
| | | | Shopify |
| | | | Cypress.io |

## Portfolio

### *SolidStock* ⬏

- Revitalized stock exchange website with cutting-edge technologies: Leveraged Angular 16 and API to create an engaging platform.
- Engineered dynamic user experiences through advanced features: Employed router navigation, reactive forms, HTTP services, and seamlessly integrated Highcharts for captivating data visualization.
- Enhanced performance and user-friendliness: Employed ngx-pagination and harnessed the power of RxJS for streamlined data management, while maximizing modularity with strategic use of injectables.

### *BMW Clone* ⬏

- Elevated user engagement by recreating the BMW homepage using SCSS, infusing a modern aesthetic and enhanced styling.
- Innovatively implemented jQuery keyboard controls, fostering an interactive browsing experience that seamlessly integrates user inputs for heightened accessibility and navigation.

### *Gotel* ⬏

- Crafted a sophisticated hotel booking platform utilizing React, skillfully implementing a diverse range of filters to empower users with precise and tailored search capabilities.

### *SweetMarket* ⬏

- Engineered an innovative eCommerce hub with Vue.js, harnessing the power of dynamic routing, state management, props utilization, and advanced filtering and searching functionalities.

## Certificates

### Frontend Development ⬏

From Free Code Camp

## Education

**Medicinal Chemistry and Chemical Biology, BSc.**                    2020/02 – 2022/06 | Bremen, Germany

*Jacobs University Bremen*
